

## How do students respond to instructors and classmates on [Flipgrid](#)?

- Students do not need to create their own accounts. Instructors share the [Flipgrid](#) code with you, which allows you to join a “grid”
- If you want to use your smartphone, **make sure that you download the free app from the App Store first**
- Students should click on “Remember Me” so you only need to do this once

## Responding on [Flipgrid](#):

- Once you have access, click on the big green + sign to respond
- Students have unlimited opportunities to record their responses, so no worries if you need multiple takes to make your video “just right”
- Need to do a little editing? Again, no worries, as you will be able to trim your video at the end
- Have fun personalizing your responses with the fun stickers! 😊😎🤓

Are you camera shy? Check out [this post](#) before responding on [Flipgrid](#)!
